## ALLEGED U. S. TROOPS FIRST TO OPEN FIRE

Mexican Statement Issued Regarding Trouble on Texas Border Differs Widely From One on This Side

Claim Trooper's Hat Found Two Miles Over Line as Evidence—Allege Mexicans Drove Americans Back

EL PASO, Tex., Sept. 29.—That ten American cavalrymen of troop H, second cavalry, crossed into Mexico Saturday night and began shooting at three Mexican wood cutters, is the version of the international shooting incident near San Elizario which has been given out by federal officials of Mexico at Juarez.

To prove their assertions, Col. Juan N. Vasquez, military commander of Juarez, showed a hat which one of the United States soldiers is alleged to have lost, adding that the three woodcutters returned the fire and forced the Americans to retreat to their own side of the line.

In one report of the affair received by the federal officials at Juarez, it is said three Mexican line riders assisted the wood cutters in driving the American troopers off after the shooting commenced.

"The American soldiers as proven by the hat in possession of the military authorities of Juarez, trespassed on Mexican territory," said Inspector of Mexican consulates Miguel E. Diebold, in a statement tonight. "In their hurried departure they left the hat two miles from the international boundary. Investigation is now being conducted by the Mexican authorities of the reports of the affair prior to that to be made to the respective authorities."

The wood cutters are alleged to have reported to the Juarez municipal authorities that they were on the Mexican side of the river with a wagon cutting wood when the American soldiers appeared on the Mexican side. The troopers, they claim, followed them about two miles into Mexico. The soldiers finally caught up with the woodcutters, it is alleged, and searched their wagon. Then, it is said, they allowed the woodcutters to depart, but as the Mexicans started, a soldier began shooting. The woodcutters, armed with rifles, immediately returned the fire.

Accounts of the occurrence reached this city from San Elizario Saturday night and stated that American soldiers were on duty on the American side when thirty Mexican federales appeared on the Mexican side and opened fire without warning or provocation.

### CARRANZA'S ARMY DEFEATED

Reports Say Much Country is Devastated As Rebels Flee Before Maas

PEDROGRAS NEGROS, Mex. Sept. 29.—Reports from Sabinas and Barrancas, yet lacking confirmation, indicate that the Constitutional army under General Juan Carranza has met defeat and is in full retreat toward the border, with 1,600 federales under General Maas in pursuit.

Americans who were ordered to leave the disturbed district last week, arriving here today, declare that the mining properties at Menor, Aguajita, Rosita and possibly Esperanza, as well as the town of Barroteran, had been destroyed to prevent their capture by the federales. At least 3,000 refugees from the disturbed district are reported fleeing toward the Texas border.

## Tariff Bill in Last Stages—Should be Ready to Sign By President by Week's End

Returned to House from Conference—Currency Discussion Takes on New Spirit—Clark Alleges Lobbying

WASHINGTON, D. C., Sept. 29.—The democratic tariff revision bill, first on the program of reforms mapped out by President Wilson, advanced to the last congressional stage today, when it was brought back to the house from the joint conference with unanimous endorsement of the democratic conferees.

The leaders of both houses are confident tonight that the bill, virtually complete now, will be signed by the president before the end of the week, making way in the center of the state for the currency bill, which will then be forced upon the attention of the country.

Coincident with its consideration, there will be administration work up on the anti-trust and railroad control programs to be brought up in the December session.

During this morning the full conference committee was convened by Chairman Simmons and gave the report formal approval. Senators Simmons, Williams, Johnson and Shively, and Representatives Kitchen, Underwood, Dixon and Rainey, the democratic conferees, all agreed except the cotton futures tax proposition, which the full report while the republicans and progressive members declined to sign.

The house will take up the tariff bill at 11 tomorrow. It is believed the bill will be passed before adjournment. It is expected to reach the senate Wednesday and pass that body Thursday.

A general revision of the administration currency bill to insure carrying out its purposes was recommended to the senate banking and currency committee today by Samuel Undermyer. He declared for the issue of currency only on commercial paper, repudiation of purchases or sales of commodities which would enter into commerce.

Undermyer also recommended alternating the plan of the organization of the proposed national reserve bank. He would give national banks 90 days in which to subscribe the capital and deposits for regional banks, and if not forthcoming throw the stock books open to public subscription, closely restricting the powers of subscribers in controlling the banks.

Undermyer recommended that the proposed "advisory council" of bankers as an adjunct to the federal reserve board be abolished, and government given closer powers of regulation and removal over the regional reserve directors. He urged that banks be given a flat profit of 5 per cent on their investments in regional banks and the government be given all the profits above that figure.

Senator Clarke, of Arkansas, tonight said he would ask the senate finance committee tomorrow to investigate the activities of E. J. Glenn, president of the New Orleans cotton exchange, and John F. Clark, of New Orleans, in connection with the proposed cotton futures tax feature of the tariff bill. The senator said Glenn and Clark had been in Washington four months working against the cotton futures tax amendment, which was rejected by the house conferees.

## NEGRO IS SENTENCED TO GALLOW

Lewis Nelson Unnerved When Judge Lockwood Fixes Date—Hardly Able to Stand—Murder Was Brutal

Five Years to Life for Douglas Fiend—Youth Who Attempted Murder of Wife Will Be Called Today

TOBIASSTONE, Sept. 29.—(Special)—Lewis Nelson, who was convicted of murder in the first degree on Saturday afternoon was this morning sentenced to be hung on the 17th of December.

Nelson was convicted of killing another colored man named Albert Jones, in the Copper City Club in Douglas on the 7th of June. Nelson had a few words with Jones and then left the place. Going to where the Border Patrol was stationed at the Custom House he stole a government rifle. Going back to the saloon he placed the rifle at the back door and going around to the front went through the building. As he did so he called to Jones to come out. That Jones started to follow and got within a few feet of the door when Nelson picked up the gun and shot Jones. Jones started backward, with Nelson following. He fired a second shot which missed Jones but hit a piano player who was in the room. Nelson then followed Jones, who by this time was sinking down on a bench in the corner of the room and walking up as within a few feet of him fired again, the bullet passing through Jones' neck and through two board partitions. He was arrested by the officers before he had a chance to leave the room.

Nelson was greatly affected by the announcement of the verdict on Saturday afternoon, and this morning when the judgment of the court was pronounced fixing the date of his death, he was hardly able to stand while Judge Lockwood was talking to him. In the case of the State vs. Edward Vaughan convicted of the criminal assault on Douglas last March, the court this morning sentenced him to serve from five years to life. Besides being positively identified as the assailant in this case was also positively identified by two other women who were assaulted on the streets of Douglas a few days prior to the commission of the crime for which he was convicted.

In the case of the State vs. James Clark who is charged with the crime of assault with a deadly weapon, which was set for trial for tomorrow, an order was entered continuing the case until the 10th of October, as it was found that the defendant, who has been out on bond, is at present confined in the branch county jail at Bisbee and is temporarily insane, by reason of excessive use of liquor.

In case of Juan Espinosa, charged with attempting to kill his wife at Douglas a few weeks since, will be called in the morning. Espinosa had trouble with his wife over the fact that she refused to let him put his clothes in her trunk and pulling a six shooter shot her through the heart. The woman was taken to the hospital and for several days it was expected that she would die. She has now recovered and is able to be about. Espinosa is a youth of 18 years.

## SULZER HAS GOOD DAY IN PROCEEDINGS

Court Sustains Objections Giving Him Triple Victory Over Opposition—Partly Fault in Impeachment.

Colwell, Missing Sulzer Dummy, Said to Be Ready to Appear, If Protected—Member of Brokerage Missing

ALBANY, N. Y., Sept. 29.—Governor Sulzer won a triple victory today over his accusers. Presiding Judge Cullen, of the high court, barred introduction of evidence intended to prove the governor made a corrupt political bargain with Assemblyman Patrie, of Greene County, and held that testimony to show that he made similar bargains with Assemblyman Sweet, of Oswego and Assemblyman Prime, of Essex was incompetent.

The legislation had to do in each case with the highway and bridge improvements provided for in bills passed by the legislature, to which the assemblyman were desirous of getting the governor's signature.

In the Patrie case, however, no charges were brought in the articles of impeachment and on this ground Judge Cullen threw the charge out. The Sweet and Prime cases were specified in the impeachment, it being alleged the governor vetoed one and signed the other bill. One assemblyman failed to support the governor's direct primary bill and the other did so after consulting Sulzer, the managers charged.

The long missing Frederick L. Colwell, the governor's alleged dummy in Wall street, according to Sulzer counsel will testify as his witness under protection from arrest, refusing otherwise to obey a subpoena of the Frawley committee. It was not decided tonight whether this stipulation would be accepted.

Thus far, counsel has been unable to locate J. B. Gray, the partner of Arthur L. Fuller, who was on the stand today. He said Gray had been evading service. Fuller and employees gave testimony today tending to show Colwell purchased 300 shares of "Big Four" stock through law firm, for which he paid \$17,000 cash.
